Method

1. Tie in Black Thread 2mm behind eye and wind in touching turns towards bend.
2. Tie in Tag on top of shank and bind down towards bend, stopping above point of hook.
3. Wind 3-4 turns tag & return oval under between legs of hook, tie in and bind down surplus.
4. Tie in Rib under shank and bind down to bend.
5. Tie in Body Tinsel at bend and bind down to head.
6. Wind Body Tinsel in overlapping turns to behind eye, tie in and trim (can varnish under to secure).
7. Wind Rib in 4 or 5 open turns up body, tie in and trim, tidy thread to form flat base for wing.
8. Tie in Wing – sparce – about 1.5 times body length and trim off surplus. (Drop varnish on hair ends)
9. Tie in 2 strands Micro Flash to length of wing, double, cut off longer length and tie in
10. Strip small bunch of hackle fibres, tie in under shank with pinch & loop and trim.
11. Tidy up head thread over cut ends.
12. Tie in pair of small Jungle Cock Cheeks, fold back tie in and trim off.
13. Trim off surplus materials.
14. Wind thread to form neat bullet shaped head and apply coat superglue.
15. Apply clear or black varnish – 2 coats, 24 hours apart.
16. Clean varnish out of eye of hook after each application!-----
